

Monkey Birthday Hat

You will need:

- construction paper
- scissors
- glue or tape
- optional - markers or crayons
- optional - glitter, beads, and streamers

You can make the hats before hand by using the already colored in Monkey, or use this as a fun party starter activity by letting the kids color in their own animals.

1. Print out page and cut out either the colored or black and white Monkey depending on which you want to use. **(black and white for kids to color/colored Monkey to make hats quickly)**
 2. Cut two strips of construction paper about 4 inches wide and as long as you can make them.
 3. Tape the strips together end to end so you have one very long strip.
 4. Measure the paper around the child's head and mark about two inches longer than needed.
 5. Glue or tape the Monkey onto the construction paper strip.
 6. Tape the ends together to form party hat.
 7. **Optional:** tape strand of streamer or ribbon onto back of hat. Also add decorative ornaments if desired.
- *You can also have the kids decorate the paper band, add their names, etc...

(Let Kids Color Before Cutting Out)
